### Broken Levels Challenge

Rabbit Escape is a fun game where you have to get your rabbits to the exit.

But our levels have been broken!

### Can you fix them?

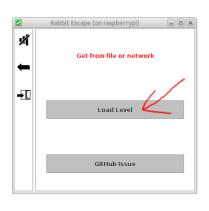

Your challenge is to edit the levels so that they are possible to solve, and then prove it by solving them!

# Start the game and play a level

### 1. Double-click on Rabbit Escape 2. Clic

### 3.Click "Load Level"

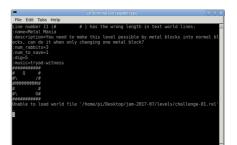

#### 2. Click "Custom Levels"

## 4. Choose the level you want to play

<b>&amp;</b>	Open a level file (on raspberrypi)	×		
Look In:	📑 levels 💌 🖬 🛱 🗂			
🗋 challe	enge-01-solution.røl			
🗋 challe	enge-01.rel			
🗋 challe	enge-02-solution.rel			
challenge-02.rel				
🗋 challe	enge-03-solution.rel			
Challenge-03.rel				
File <u>N</u> ame	ne:			
Files of T	Type: Rabbit Escape Level (*.rel)	-		
	Open C	ancel		

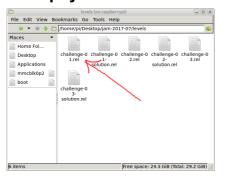

If there's a problem it will appear in the black terminal window. Close Rabbit Escape to try again.

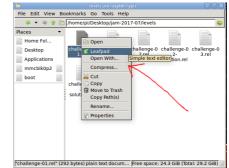

## Edit a level

### 1. Find the level in "File Manager".

The challenges are in Desktop/jam-2017-07/levels

### 2. Open it in "Text Editor"

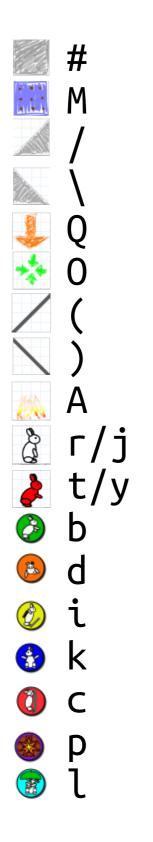

## 3. Change the characters to change the level.

## Challenges

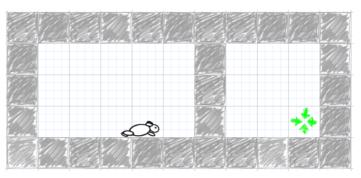

**challenge\_01.rel** Remove one block to make this level easy!

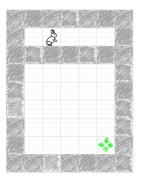

**challenge\_02.rel** Add a slope to get your rabbits up a bit.

**challenge\_03.rel** This time add a token to get through.

**challenge\_04.rel** Now use digging ability and add a block to win.

**challenge\_05.rel** Remove a token to beat this level.
